

Appl. No. 10/848,869
Amdt dated November 23, 2007

Amendments to the Specification:

Please revise paragraph [0038] at the top of page 13 as follows.

[0038] After acts 204A and 204B, act 205 is performed by method 300 in the above-described manner, and if there are more rows to be updated, then method 300 loops back to act 303 (described above). In some embodiments, the method further comprises writing a plurality of logs, at least one log for each row identified in the group of row-identifier and value pairs.
